TORREDEMBARRA 2023**

## LLORENÇ BEACH SOCCER CUP TORREDEMBARRA 2023

**6-9 of April, 2023**  
**Torredembarra**

Torredembarra hosts this Easter the Llorenç Beach Soccer Cup 2023. After the success of the first edition, the competition for young talents is even stronger to contribute to the evolution, professionalization and future of beach soccer.

A unique and global experience in an unbeatable environment such as the Paella beach in Torredembarra.

Four days of sun, sand, fun, coexistence, leisure, cultural exchange and lots of beach soccer.

An Under16 / Under19 competition in the female and male categories and a great showcase for the new generations that this year is expanding internationally within the official Beach Soccer Worldwide (BSWW) calendar.

We are committed to values and we want our philosophy to spread from the base around the world.

Come and enjoy the second edition of the Llorenç Beach Soccer Cup.

We will wait for you!

## Torredembarra, the cradle of beach soccer

Torredembarra has become one of the main tourist centers on the Catalan coast. The good weather, the beauty of its landscape and its excellent cultural, leisure and gastronomic offer are some of the elements that make thousands of visitors not hesitate when choosing their destination and each year they firmly bet on our town, one of the epicenters of the Costa Dorada.

Beyond this highly varied offer, sports tourism is another of the branches that is gaining more and more strength in the municipality. A new attraction that adds to the rich and varied autochthonous associative fabric that takes advantage of this tourist demand to nourish itself and broaden horizons.

This is the case, for example, of beach soccer, which takes advantage of these seasons with the greatest influx of population to consolidate bases that today have a long history behind them.

For nearly thirty years, Paella beach has hosted a local tournament every August that brings together hundreds of people for a week. An increasingly professionalized competition with a greater number of followers that not only favors the sporting health of the town, but also contributes to the improvement of local commerce and economy.

This evolution has been accompanied by the appearance of a training school, led by the neighbor Llorenç Gómez, which has grown by leaps and bounds and has seen the birth and growth of high-level footballers, many of whom are currently members of the National Spanish Team.

Public authorities have been able to take advantage of this context. The 2012 season already offered the municipality as the setting for one of the regular phases of the Euro Beach Soccer League (EBSL). The experience was a complete success and led the municipal officials to repeat as hosts in 2013 and 2014, in both cases, as the venue for the Superfinal of this same competition, with the participation of more than fifteen of the best national teams.

Paella beach has also been chosen on several occasions to play the Catalan Championships in senior and junior divisions.

A whole trajectory that makes Torredembarra the perfect setting to consolidate and develop this second edition of the **Llorenç Beach Soccer Cup**.

We intend to consolidate the municipality as the cradle and platform for the discovery and launch of young talents, while we want to contribute our bit of arena in the professionalization of this sport modality.

Encouraging and promoting the values of sport as well as the practice of physical activity among the youngest, attracting the largest number of participants and spectators, and becoming an example of organizational capacity, are other objectives that we want to achieve.

Goals, all of them, to end up placing Torredembarra on the regional, national, and international map of sporting events, both at an amateur and professional level.

## Llorenç Beach Soccer Cup, a competition to educate through the values of sport

The competition is an opportunity to grow, learn and educate in values. Values such as commitment, perseverance, individual responsibilities, teamwork, respect for the rules, respect for teammates, rivals and referees, or the reinforcement of self-esteem, among many others that sport offers.

Our job is precisely to provide the necessary tools and create learning situations within the competition that allow the youngest to implement all these lessons in their lives.

Educating through sport implies developing a positive synergy that will help them to be better every day. An instrument of personal maturation that offers comprehensive training, which helps them to develop both physically and mentally.
